Mandatory 10-Digit Dialing

The Federal Communications Commission (FCC) has adopted 988 as a new three-digit number to be used nationwide to reach the National Suicide Prevention and Mental Health Crisis Lifeline.

In order for 988 to work in the 605 area code, 10-digit local dialing must first be implemented. To complete local calls, all customers in the 605 area code will need to dial the area code followed by the 7 digit telephone number. Mandatory 10-digit dialing began in October of 2021.

If you have any questions regarding information provided in this notice, please call Midstate Communications at (605) 778-6221 or go to web.midstatesd.net for more information. You can also visit the FCC website at <https://www.fcc.gov/suicide-prevention-hotline>.

Relay South Dakota Makes Telecommunications Accessible for Nonstandard Phone Users

What is Relay South Dakota?

Relay South Dakota makes using the telephone possible for thousands of citizens and visitors who are Deaf, Hard of Hearing, Deaf/Blind, or Speech-Disabled. It is a no cost, completely confidential service that is available 24-hours a day.

How does Relay South Dakota work?

The person dials the toll-free Relay South Dakota number and gives the Communications Assistant the area code and number of the person receiving the call. Relay South Dakota service has highly trained Communications Assistants who voice the typed comments by the TTY (text telephone) user and type the spoken comments by the other party back to the TTY user. Relay South Dakota provides several options for people who do not use a standard telephone.

How to connect to Relay South Dakota

Dial: 711*	TeleBraille: 800-877-1115
TTY: 800-877-1113	Voice Carry-Over: 877-981-2117
Voice: 800-877-1113	Hearing Carry-Over: 800-877-1113
Spanish: 877-981-9743	Speech-to-Speech: 877-981-9744

* Some buildings with a PBX telephone system (often in hotels and offices that have extension numbers) make reaching 711 not possible. The 800 numbers can be dialed when not able to get through to 711.

Relay Services for People with a Speech Disability

Relay South Dakota provides services that allow people who have a speech disability or those who use a voice synthesizer to communicate with anyone at any time on the phone. A Communications Assistant, specially trained to understand speech patterns, repeats your words as needed for clarity. Learn more at relaysd.com/speech-to-speech-sts.

Relay Conference Captioning

Relay Conference Captioning (RCC) is a service available for deaf and hard of hearing residents of South Dakota at no cost. The service allows these individuals to participate in remote meetings, phone calls, videoconferences and multi-party teleconference call. To book an RCC event, go to relaysd.com/relay-conference-captioning-rcc.

How do I apply for specialized telephone equipment?

The Telecommunication Equipment Distribution (TED) program provides free or low-cost phone equipment to people who are Deaf, Hard of Hearing, Deaf/Blind and or Speech Disabled. Individuals can choose from a wide variety of easy-to-use equipment options, including: TTY, Amplified Phones, Captioned Phones and Mobile Devices. To be eligible for the TED Program you need to live in South Dakota and have hearing loss, speech or physical disability that limits your use of a standard telephone. Learn more at relaysd.com/ted.

 T-Mobile Accessibility Care Email: access@t-mobile.com

Services supported by surcharge

A few cents per telephone bill surcharge makes Relay South Dakota services possible for the citizens of South Dakota.

711 is not an emergency number

Some people might assume it is okay to call 711 for emergencies. The 711 Relay South Dakota number is for relay service calls only. The Americans with Disabilities Act (ADA) requires that 911 centers be prepared to handle emergency calls from people who use the text telephone. Relay South Dakota will make every effort to assist a person during an emergency but cannot serve in the same function as 911 centers. Relay South Dakota does not assume responsibility for handling emergency calls.

Long Distance Dialing

Types Of Calls

Station-to-Station

Call station-to-station if you wish to talk with anyone who answers. This is the normal way to place a call. Rates are lower than person-to-person. Charging begins when the called telephone number is answered.

Person-to-Person

Call person-to-person when you wish to talk to a particular person or extension number. Tell the "OPERATOR" you wish to make a "person-to-person" call. Rates are higher than station-to-station and also apply when you talk to an alternate person or extension. Charging starts when conversation begins.

Collect

You can call "collect" if the person or firm you are calling agrees to pay the charge. If you want to make a "collect" call, please be sure to tell the "OPERATOR" when you place the call.

Bill To Third Party

Customers may place calls and transfer the charge to another telephone number. This service requires "OPERATOR" assistance. The call may be either station-to-station or person-to-person.

Mobile Calls—Air-Land-Marine

You can make local and long distance calls to automobiles, trucks, aircraft, boats, and ships. Ask the "OPERATOR" for the Mobile, Marine, or High Seas Operator.

Conference

You can talk with several people in different places at the same time. Contact your local telephone company.

800, 833, 844, 855, 866, 877, or 888 Service Information

Long distance calls can be made without charge when calling those businesses who have 800, 833, 844, 855, 866, 877, or 888 service numbers. They offer this service to customers calling from specific locations. To call an 800, 833, 844, 855, 866, 877, or 888 number, dial: 1 + 800 + the telephone number, 1 + 833 + the telephone number, 1 + 844 + the telephone number, 1 + 855 + the telephone number, 1 + 866 + the telephone number, 1 + 877 + the telephone number, or 1 + 888 + the telephone number.

Certain 800, 833, 844, 855, 866, 877, or 888 service numbers that you call may give other options and instructions for you to obtain additional information or messages. These options may require you to push another number on your touchtone dial pad and may result in a charge to you.

You may also have your own 800 number for incoming calls. Contact your local telephone company.

900 Service Information

900 telephone numbers are usually offered by businesses, broadcast stations, or other organizations for the purpose of allowing callers to register opinions or listen to special recorded information. There is a charge for every 900 number dialed. To call a 900 number, dial: 1 + 900 + the telephone number.

You may request to block 1 + 900 calling from your phone. Contact your local telephone company.

Overseas

You can call practically any telephone in the world from your telephone. See Pages 10-11 for International Dialing Information.

Long Distance Calling: All toll calls will need to be placed using the 1 + 10-digit dialing method. In other words, you will need to dial 1 + the area code + 7-digit telephone number for every long distance toll call you make. For Example: Dial 1 + 605 + XXX + XXXX

You will dial the 10-digit telephone number for all local calls.

International Calling

How to Dial Most International Codes

Dialing Instructions

International calling is more convenient today than ever before. Calls can now be dialed to many overseas countries by customers throughout the United States. The following instructions are for placing international calls.

Station-To-Station Calls

To dial international calls, dial in sequence:

1. The International Access Code—011.
2. The Country Code—a two- or three-digit number.
3. The City Code—a one-to five-digit number.
4. The local telephone number.
5. The “#” button—where telephone is equipped with Tone Dial dialing.

For Example:

To place a call to Frankfurt, Germany, to telephone number 123456, you would dial:

International Access Code		Country Code		City Code
011	+	49	+	69
	+	123456	+	#
		Local number		button if Tone Dial dialing *

* Tone Dial dialing saves additional time by using this step.

Dial the International Access Code (011 or 01) without pausing between digits. If you hesitate 3 seconds or more after dialing “0”, you’ll get your local operator.

Signals (ringing, number busy, etc.) in other countries often differ from those in the United States.

Operator-Assisted Calls

To dial person-to-person, collect*, calling card, and billed to a third number international calls, follow the instructions given but use 01 for the International Access Code. After the call is dialed, the Operator will come on the line to ask for information such as the name of the person you are calling or your calling card number. After dialing any international call, allow at least 45 seconds for the ring to start.

* Certain countries will not accept collect calls.

To Place A Call To The Bahamas, Bermuda, Canada, Puerto Rico, And The Virgin Islands

Calls to these points and most other Caribbean points can be dialed in the same manner as long distance calls within the United States. Simply dial “1” plus the appropriate Area Code and the local number. Calls to international points are subject to international rates.

Cost Of International Calls

1. Rate Periods vary from area to area but usually consist of a day rate, evening rate, and night rate period.
2. Customer Dial Rate - A one minute initial period applies. The initial period rate and additional minutes are determined by the time the call is placed at the originating point.
3. Operator-Assisted Rate - A three minute initial rate period applies.
4. Collect Calls - The person-to-person rate is applied to collect calls billed in the United States.

International Calling Plans from various carriers can greatly reduce International Rates.

International Calling

TO MAKE DIRECT DIAL CALLS USE THE CHART BELOW AND DIAL:

Example: La Paz, Bolivia: 011 + 591 + 2 + Number

TO MAKE OPERATOR-ASSISTED CALLS USE THE CHART BELOW AND DIAL:

(Or Call Your Long Distance Company)

Example: Nepal: 01 + 977 + No City Code / Omit This Step → An Operator Will Come On The Line

* - This zip code is for General Delivery only - please contact your local Post Office for other zip codes.

Use Local Zip Codes.

They're right in your phone book.

Letters going across town need Zip Codes as much as letters going across country.

Space for this ad has been contributed as a Public Service by this publication.

General Rules & Regulations

Directory Listings

For each subscriber, a listing is provided in the alphabetical section of the directory without additional charge. In telephone directories having classified business sections, one additional business listing is also furnished without additional charge to each business subscriber under standard business headings. Subscribers may arrange for extra listings by applying at or calling the Business Office. Business subscribers may arrange for additional listings both in the main and in the classified sections of the directory. Additional listings under various classified headings in the classified section will be helpful in stimulating additional business.

Additional Directory Listings

Additional directory listings are available for an extra monthly charge. Here are some of the directory listings which may be of service to you.

1. **ADDITIONAL RESIDENCE LISTINGS** — for other members of your household, especially those with different surnames.
2. **ADDITIONAL BUSINESS LISTINGS** — for the person who needs their own name in the directory, in addition to their firm's name.
3. **AFTER-HOUR LISTINGS** — to give direction where to call after hours and on Sundays and holidays.
4. **EXTRA PAID CLASSIFIED LISTINGS** — where a business has several lines of merchandise or service which it wishes to publicize. For example, a building material firm will want to be listed under building supplies, lumber, paint, sash and doors, hardware, etc.

Listings Not Appearing In This Directory

Between directory issues a great many telephones are installed. Customers may obtain telephone numbers not shown in this directory by calling Directory Assistance where an up-to-date list of all subscribers is maintained.

After asking Directory Assistance for a number which has been changed since the current Directory was issued, write the new number in your directory immediately for future reference. It will expedite your service. There may be a charge for this service.

Information & Transmission Service

The Telephone Company assumes no liability for errors which may arise in imparting information nor for any errors or delays in transmission over the instruments and lines of the Telephone Company.

Responsibility For Listings

The Company does not undertake to ascertain the right of any subscriber to use any title or business description in connection with his/her directory listing, and may reserve the right to change these listings at any time in accordance with any provisions that may be laid

down by law concerning directory listings and similar privileges.

Directory Accuracy

The Company does not assume liability because of errors or omissions in compiling this directory. Directory listings are carefully handled in order to insure directory accuracy, but in spite of this care and attention errors occasionally occur. If your listing is incorrect in any way, please call the Business Office promptly so that our information records and future issues of the directory may be corrected. Also, please promptly advise the Company of any other desired changes in your listing, such as a change of your house number or street, name, etc.

Responsibility For Advertising

Neither the Telephone Company nor the Directory Company will assume any liability for damages arising from errors or omissions in free listings. Its liability in the case of paid listings shall not exceed the charge for such listings during the life of this directory. Its liability in the case of advertising shall not exceed the charge for such advertising during the life of the directory.

Teach Your Children To Dial "0" or "911" In Emergencies

Show your children how to use the phone in an emergency by teaching them how to dial "0" for the operator or "911" for the authorities. Also, make sure they know their home phone number and encourage them to always call home if they're going to be late. Give them change to carry for emergency calls.

Customer-Provided Equipment

Customer-provided equipment may not be attached to or connected with telephone facilities unless (1) it is registered or otherwise approved by the Federal Communications Commission (2) it meets the conditions set forth in the company's tariffs, and (3) advance notification is given to the telephone company, by the customer, of the type of equipment to be connected and the type of telephone company facility required to make the connections. These rules and tariffs are designed to meet the convenience of the customer and at the same time protect the telephone network against any possible hazards to customers and company employees.

The telephone companies will not maintain and may not be able to repair customer-provided equipment. A service charge may apply if the telephone company visits the premises of the customer and the service difficulty or trouble is found to have been caused by the customer-provided equipment or facilities.

If you have any questions concerning the use of customer-provided equipment, please contact your Business Office.

General Rules & Regulations

Public Utilities Commission (PUC)

If the problem cannot be solved to your satisfaction, you may refer your complaint to the South Dakota Public Utilities Commission (SDPUC) at 500 East Capitol Ave, Pierre, South Dakota 57501-5070 or telephone toll free 1-800-332-1782.

Taxes

Federal law requires a 3 percent excise tax on telephone rental and long distance charges. These taxes are billed to all telephone users not specifically exempt by law. All taxes collected are remitted to the proper federal and state agencies.

Allowance For Failure Of Service

The Telephone Companies do not guarantee uninterrupted working of its lines or equipment. In case service is interrupted otherwise than by the negligence or willful act of the subscriber, an adjustment will, upon application by a subscriber, be made in the amount of charges for such service, equipment, and facilities furnished as are rendered useless or inoperative. Any adjustment shall apply only to the period the interruption continues beyond 24 hours after notice of the interruption is received by the Telephone Companies. No other liability shall in any case attach to the Telephone Companies.

Billing & Payment For Service

If you desire assistance or explanation regarding your bill, please call the Business Office.

National Do No Call Registry

The federal government created the National Do Not Call Registry to make it easier and more efficient for you to stop getting most telemarketing sales calls you don't want. You can register online at www.donotcall.gov if you have an active email address, or you can call toll-free, 1-888-382-1222 (TTY 1-866-290-4236), from the number you wish to register. Registration is free and your number will stay in the registry until it is disconnected, or until you delete it from the registry.

If you receive telemarketing calls after you have registered your telephone number and it has been in the registry for three months, you can file a complaint at www.donotcall.gov or by calling 1-888-382-1222 (TTY 1-866-290-4236). You will have to know the company's name or phone number to file a "do not call" complaint.

Annoying, Obscene, & Threatening Calls

If you get an annoying, obscene, or threatening call, hang up immediately. See page 22 for instructions on using Customer Originated Trace. Threatening calls should be reported immediately to the police. Obscene or harassing calls are prohibited by federal and state laws. A person who makes or permits such calls to be made over a telephone under his/her control may be fined or imprisoned, or both.

Telephone Assistance Programs

Low Income Assistance Available to Telephone & Broadband Subscribers

Midstate Communications is authorized to offer Lifeline assistance to our customers. The Lifeline Universal Service Program is a government supported program available to qualified, low-income consumers and offers a discount for eligible telephone and bundled Internet service meeting the minimum standards.

Moving your monthly Lifeline discount so that it also applies to your current bundled service which includes both voice telephone service and Internet service, will generally require that you agree to not transfer your Lifeline benefit to another provider for twelve months. There are certain exceptions to this requirement.

Tribal Lifeline/Link-Up

The Tribal Lifeline program provides a reduction in monthly charges to telephone or bundled Internet service to customers who live on tribal lands and are currently receiving benefits from a qualifying public assistance program. Eligible subscribers may be eligible for additional discounts up to \$25.

The Tribal Link-Up program provides a reduction in connection charges to telephone customers who live on tribal lands and are currently receiving benefits from a qualifying assistance program.

How to Qualify for a Lifeline Discount:

You must participate in at least one of the following programs to be eligible for a Lifeline Program discount:

- Supplemental Nutrition Assistance Program
- Supplemental Security Income
- Medicaid
- Federal Public Housing Assistance
- Veteran's Pension and Survivors Benefit Program
- Income Below the Federal Poverty Guidelines

If residing on tribal lands the following eligibility criteria is also available to be utilized:

- Bureau of Indian Affairs General Assistance
- Tribally-administered Temporary Assistance for Needy Families
- Food Distribution on Indian Reservations
- Head Start

Statement of 900 Pay-Per-Call Rights

STATEMENT OF BILLING ERROR RIGHTS

This statement sets out your billing error rights with respect to telephone-billed purchases made using interstate 900 pay-per-call services that are billed to you through your local telephone company.

The rights and obligations of you, the customer, and of your local telephone company and any long distance company, who we do billing and collections for, set out here, are provided under the Federal Telephone Disclosure and Dispute Resolution Act.

This is the procedure that you must follow to notify your local telephone company of a billing error and the steps that we or any long distance company, who we do billing and collections for, must take in response to your notice:

You may provide notice of a billing error to your telephone company by telephone or in writing. If you write, you should:

- (1) give us your name or the customer's name, and telephone number to which the charge was billed;
- (2) tell us the date and amount of the error, and the type of error you believed occurred; and
- (3) tell us why you believe it was an error.

You should contact your local telephone company first, since there is an agreement to receive billing error notifications from customers. You may provide a notice to any long distance company, who we do billing and collections for, instead, and it may ask you to contact us directly, and provide to you our name, mailing address, and business telephone number, even if it also sends your billing error notice to us.

A customer who orally communicates an allegation of a billing error is presumed to have provided sufficient notice to initiate a billing review.

You have the right to withhold payment of any disputed amount pending completion of our billing review, and any action to collect any disputed amount will be suspended pending completion of the billing review.

If it is determined that no billing error occurred, your rights and obligations are as follows:

We will transmit to you an explanation setting forth the reasons why it has been determined that there was no error. If there was an error - even a partial error or an error different than what you asserted - your account will be adjusted appropriately. If you request, we will provide a written explanation and copies of any documentary evidence of the customer indebtedness.

This action will be taken within two billing cycles (two months) after your notice is received. If you send your notice to any long distance company, who we do billing and collections for, instead of your local telephone company, there may be an additional time of up to fifteen days to complete the necessary responsive action.

Any long distance company, who we do billing and collections for, will notify the provider of the service of the disposition of the billing error investigation and the reasons for that disposition.

Your local telephone company will notify you in writing of the time when payment is due of that portion of the disputed amount that is determined not to be in error. Payment must be made in the normal course of billing or as otherwise provided, but not less than ten days after the request for payment is made.

Once your local telephone company and any long distance company, who we do billing and collections for, have complied with FTC rule § 308.7 (d) regarding a claim you make of a billing error, there is no further responsibility under that section if you continue to make substantially the same allegation.

You cannot be charged for a billing review.

The provider of the 900 service, any long distance company, who we do billing and collections for, or your local telephone company may take action to collect the sum outstanding that is determined not to be the result of a billing error if you continue to withhold payment of the disputed amount once the billing review is completed.

If either we, as your billing entity, or any long distance company, who we do billing and collections for, as a billing entity, fail to follow the billing and collection procedures prescribed by § 308.7 of the Federal Trade Commission rule implementing the Federal Telephone Disclosure and Dispute Resolution Act, we are obligated to forfeit any disputed amount, up to \$50 per transaction.

DISCLOSURE UNDER FCC RULE § 64.1509 (b)

The FCC also requires disclosures to telephone subscribers, which are as follows:

Your local exchange and long distance service cannot be disconnected or interrupted as a result of your failure to pay charges for interstate pay-per-call service, charges for interstate information services provided pursuant to a presubscription or comparable arrangement, or charges you have disputed for interstate tariffed collect information services.

You can obtain blocking of access to services offered on the 900 service access code where it is technically feasible, at no charge within 60 days after you subscribe to a new number and it becomes effective. Other requests for blocking, and requests for unblocking will be subject to a reasonable one-time fee. Our tariffs include the terms and conditions that apply.

You have a right not to be billed for pay-per-call services not offered in compliance with Federal laws and regulations established under Titles II or III of the Telephone Disclosure and Dispute Resolution Act.

Your access to 900 services may be involuntarily blocked for failure to pay legitimate pay-per-call charges.

Statement of Nondiscrimination

Midstate Communications is an equal opportunity provider and employer.

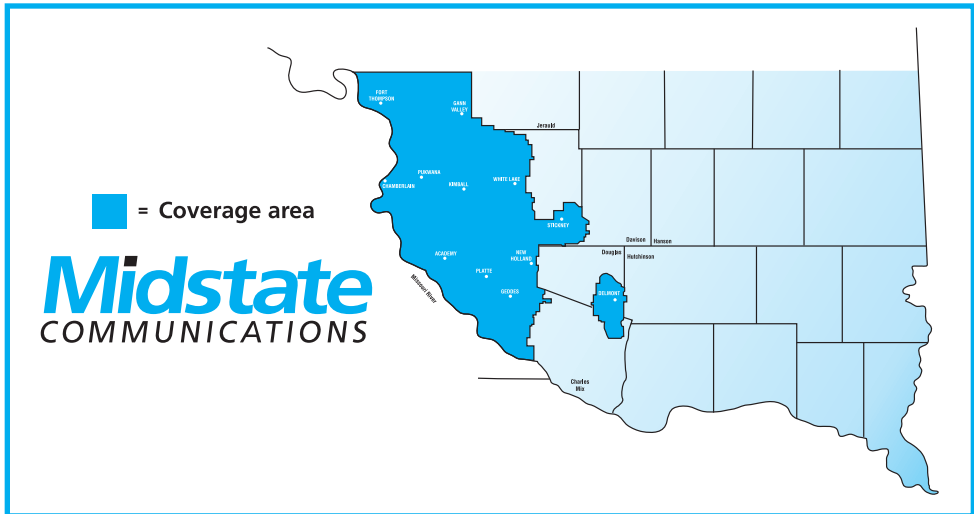

To file a discrimination complaint, a Complainant should complete a Form AD-3027, USDA Program Discrimination Complaint Form which can be obtained online at: <https://www.usda.gov/sites/default/files/documents/USDA-OASCR%20P-Complaint-Form-0508-0002-508-11-28-17Fax2Mail.pdf>, from any USDA office, by calling (866) 632-9992, or by writing a letter addressed to USDA. The letter must contain the complainant's name, address, telephone number, and a written description of the alleged discriminatory action in sufficient detail to inform the Assistant Secretary for Civil Rights (ASCR) about the nature and date of an alleged civil rights violation. The completed AD-3027 form or letter must be submitted to USDA by:

1. **mail:**
U.S. Department of Agriculture
Office of the Assistant Secretary for Civil Rights
1400 Independence Avenue, SW
Washington, D.C. 20250-9410; or
2. **fax:**
(833) 256-1665 or (202) 690-7442; or
3. **email:**
Program.Intake@usda.gov

Your Rights, Billing Name & Address

The FCC requires our company, under certain circumstances, to release the Billing Name and Address (BNA) of our telephone customers to other telecommunications providers. The main reason for releasing BNA information is to ensure proper billing for certain types of calls. For instance, calls such as collect, third-number billed, or calling card calls may be carried by a long distance carrier who is not your chosen carrier. Under those circumstances, the carrier does not know who to bill the call to, and therefore, must request the BNA from our company in order to bill the call. We must provide the information to the requesting carrier.

BNA can also be released to telecommunications providers for other reasons, such as verification for presubscription, servicing your account, to prevent fraud, or when you move from one location to another. If you have an unlisted or non-published telephone number, you have a choice. If you do not want your BNA released by our company for third-party billed calls, collect calls and calling card calls, we need affirmative notifications from you within 30 days. If you provide us with such notification, your ability to make calling card calls or to receive collect calls or third-number billed calls may be denied. Should you have any questions regarding this matter, please call our business office at 777.

Midstate Communications Calling Features

***92 DELAYED CALL FORWARDING**

Delayed call forwarding allows you to designate a certain number of rings to let you pick up your phone before your calls are forwarded to the number of your choice

TO ACTIVATE:

1. Lift the receiver and listen for the dial tone.
2. Dial *92.
3. Wait for a confirmation tone, and then dial the number to forward to.
4. Wait for the courtesy call to be answered, or for the confirm tone if courtesy calls are not required.

TO DISCONTINUE:

1. Lift the receiver and listen for the dial tone.
2. Dial *93.
3. Listen for two short beeps. Delay call forward is disabled.

VOICE MAIL

Voice Mail is the advanced message-minding system that guarantees you'll never miss another important call again! The basic Voice Mail system allows messages to be received and stored in your personal "mailbox" until you retrieve them.

Geddes: 337-0000
Kimball: 778-0000
New Holland: 243-0000
Oacoma: 234-0000
Platte: 337-0000
Pukwana: 894-0000
Stickney: 732-0000
White Lake: 249-0000

TO RETRIEVE MESSAGES FROM HOME:

1. Dial Access Number (see above).
2. Press 1.
3. To Play Messages press 1 again.
4. To Save Message and Play Next Message press 2.
5. To Delete Message and Play Next Message press 3.
6. To Save Message as New press 4.
7. To Skip back press 7.
8. To Skip forward press 9.
9. To Pause press 8. To Resume Retrieval press 8 again.

10. To Return to Main Menu press *.
11. For Help press 0.

TO RETRIEVE MESSAGES AWAY FROM HOME:

1. Dial your prefix ____-0000.
2. It will ask for your mailbox number followed by the # key, the mailbox number is your home phone number.
3. Then it will ask for your password and the procedure is the same from here on out as if you were at home.

TO SET UP YOUR MAILBOX:

1. Dial Access Number (see above).
2. Press 9 on the main menu to select mailbox setup.
3. Follow prompts.

TO CREATE OR CHANGE YOUR PASSWORD:

1. Press 9 on the main menu to select mailbox setup.
2. Follow prompts.

***72 REMOTE CALL FORWARDING**

Allows you to transfer your incoming calls to another number from any location, including cellular phones. This is very handy if you will be at several different numbers during the day.

TO ACTIVATE:

1. Lift the receiver and listen for the dial tone.
2. Dial your Exchange Prefix + 7500. You will get a dial tone again.
3. Dial the full 10-digit phone number of the line you want to forward followed by the # button.
4. Dial your four digit pin followed by the # button.
5. Dial *72.
6. Dial the phone number you would like the calls to forward to follow by the # button.
7. Wait for the courtesy call to be answered, or for the confirm tone if courtesy calls are not required.
8. Hang up.

TO DISCONTINUE:

1. Lift the receiver and listen for the dial tone.
2. Dial your Exchange Prefix + 7500. You will get a dial tone again.
3. Dial the full 10-digit phone number of the line you want to unforward followed by the # button.
4. Dial your four digit pin followed by the # button.
5. Dial *73.
6. You will get two short beeps if successfully completed.
7. Hang up.

Midstate Communications

Calling Features

*90 CALL FORWARD/BUSY

Call Forward/Busy directs your incoming calls to a forward number only when your number is busy.

TO ACTIVATE:

1. Lift the receiver and listen for the dial tone.
2. Dial *90.
3. Wait for a confirmation tone, and then dial the number to forward to.
4. Wait for courtesy call to be answered, or for the confirm tone if courtesy calls are not required.

TO DISCONTINUE:

1. Lift the receiver and listen for the dial tone.
2. Dial *91.
3. Listen for two beeps. Call Forward/Busy is now discontinued.

CALL WAITING with CALLER ID

This service displays the calling number and/or the calling name (depending on whether the subscriber has Calling Number Delivery and/or Calling Name Delivery enabled) as part of the notification that a second call is on the line.

This service is enabled and disabled using the same access codes as Calling Number Delivery, and the same restrictions apply. These codes will only take effect if Call Waiting is already enabled.

TO ACTIVATE:

1. Lift the receiver and listen for the dial tone.
2. Dial *65.
3. Listen for two beeps.
4. Hang up.

TO DISCONTINUE:

1. Lift the receiver and listen for the dial tone.
2. Dial *85.
3. Listen for two beeps.
4. Hang up.

CALLER ID PRESENTATION

This service determines whether the calling subscriber's number is signaled on outgoing calls.

To BLOCK your number from being displayed:

1. Lift the receiver and listen for the dial tone.
2. Press *67.
3. Dial the number you're calling as usual.
4. The person you've called will not be able to see your number displayed on their telephone display screen. Instead, a "Blocked" message, or "Restricted" will be displayed.

Note:

- You must dial *67 before each call you wish to block. Otherwise, your phone number will be released to the person receiving the call.

To UNBLOCK your number for display to the called party:

1. Lift the receiver and listen for the dial tone.
2. Press *82.
3. Dial the number you're calling as usual.
4. The people you've called will now be able to see your number displayed on their telephone display screen. When you hang up and place another call, your number will again be blocked unless you use the unblock code before dialing.

Note:

- You must dial *82 before each call you wish to unblock. Otherwise, your phone number will not be released to the person receiving your call.

900 RESTRICTION

This feature allows you to control the 900 numbers made from your phone. You can block all 900 calls or allow all 900 calls.

MANDATORY ACCOUNT CODES / PERSONAL IDENTIFICATION NUMBER (PIN)

Account codes can be used for a number of purposes. For example, residential subscribers sharing a telephone line can use separate account codes to determine how to split the cost of calls, or business subscribers can use different account codes for calls to different customers to determine how to calculate expenses.

Some telephone features as this one require a PIN. When you first subscribe to such a feature, the telephone company assigns you a PIN of 0000.

How to Use Your PIN:

Introduction

1+ Restriction allows you to control each outgoing long distance call.

How to Use:

1. Lift the receiver and listen for a dial tone.
2. Dial the 1+ number. Listen for two conformation beeps.
3. Dial your four-digit PIN (do not follow with #).

Notes:

- You can place 1-800 calls without the use of your PIN.
- If you forget your PIN, contact your telephone company and ask them to reset it. Then follow the instructions listed with PIN information above.

Midstate Communications Calling Features

WAKE UP/REMINDER SERVICE

Administration Number is xxx-0010
(xxx = 3 digit prefix such as 778, 249 etc)

Schedule a One-Time Wake up call

1. Call the WAKE UP PLUS administration number.
2. Press 1 to schedule a wake up call for your phone.
3. Listen to prompts and follow instructions for Setting up day you want wake up call.
4. Enter the 2 digit hour for the wake up call.
5. Enter the 2 digit minute for the wake up call.
6. Enter 0 for AM or 1 for PM.
7. Press 1 to use the system default wake up message Or press 2 to record your own wake up message.

Schedule a Recurring Wake Up Call

1. Call the WAKE UP PLUS administration number.
2. Press 1 to schedule a wake up call for your phone.
3. Press 3 to access the advanced schedule options.
4. Press 1-7 for specific days of the week, 8 for weekdays or 9 for all days.
5. Press 2 to schedule a recurring wake up call.
6. Enter the 2 digit hour for the wake up call.
7. Enter the 2 digit minute for the wake up call.
8. Enter 0 for AM or 1 for PM.
9. Press 1 to use the system default wake up message Or press 2 to record your own wake up message.

Accepting Wake Up calls

The system will call you at your scheduled wake up time. You have snooze options.

1. Press 1 to schedule another wake up call in 3 minutes.
2. Press 2 to specify the number of minutes to wait for a follow up call.
3. Enter the number of minutes you want to snooze.

Schedule a One-Time Reminder Call

1. Call the WAKE UP PLUS administration number.
2. Press 1 to schedule a call for your phone.
3. Press 3 to access the advanced schedule options.
4. Press 1-7 for specific days of the week, 8 for weekdays or 9 for all days.
5. Press 3 to select a Reminder Call.
6. Enter the 2 digit hour for the reminder call.
7. Enter the 2 digit minute for the reminder call.
8. Enter 0 for AM or 1 for PM.
9. Press 1 to use the system default reminder message Or press 2 to record your own reminder message.

Schedule a Recurring Reminder Call

1. Call the WAKE UP PLUS administration number.
2. Press 1 to schedule a call for your phone.
3. Press 3 to access the advanced schedule options.
4. Listen and follow prompts for choosing day.
5. Press 4 to select a Recurring Reminder Call.
6. Enter the 2 digit hour for the reminder call.
7. Enter the 2 digit minute for the reminder call.
8. Enter 0 for AM or 1 for PM.
9. Press 1 to use the system default reminder message or Press 2 to record your own reminder message.

ACCOUNT CODE BILLING

Account Code Billing allows your organization, school, or business to have long distance calls tracked, sorted, and totaled by individual account codes. Assigned account codes are entered after your long distance number to separate calls by department, employee or project. This allows long-distance charges to be grouped accordingly.

ANONYMOUS CALLER REJECTION

Anonymous Caller Rejection allows you to reject calls for which Calling Name and Calling Number display information has been intentionally blocked. You do not need to be a subscriber to Calling Name and Number Delivery to have this feature. When someone calls you and has activated Caller ID Blocking, he/she receives a message saying you're not taking calls. All other calls come through as usual.

TO ACTIVATE:

1. Lift the receiver and listen for the dial tone.
2. Dial *77.
3. Listen for a confirmation tone (double beep) or confirmation message. Once you've received confirmation, hang up. If you don't receive a confirmation, try again making sure you use the correct numbers.

TO DISCONTINUE:

1. Lift the receiver and listen for the dial tone.
2. Dial *87.
3. Listen for a confirmation tone (double beep) or confirmation message. Once you've received the confirmation, hang up.

Notes:

- In case of an emergency, an operator can override Anonymous Caller Rejection.
- You will not know when or how many calls have been rejected.

Midstate Communications Calling Features

AUTO CALLBACK *66

This service allows the subscriber to automatically redial the last outgoing call. The customer requests this service by dialing an access code.

HOW TO USE:

To automatically callback the last outgoing call

1. Lift the receiver and listen for a dial tone.
2. Dial *66.

TO CANCEL:

1. To cancel all outstanding automatic callback attempts, press *86.

AUTO RECALL *69

This service allows the subscriber to return the most recent incoming call, or to hear the last incoming caller's number and then optionally return the call.

HOW TO USE:

To hear the last caller's number

1. Lift the receiver and listen for a dial tone.
2. Dial *69.
3. To then return the call, press 1.

TO CANCEL:

1. To cancel all outstanding automatic recall attempts, press *89.

UNCONDITIONAL CALL FORWARDING

This service forwards all of a subscriber's incoming calls on to an alternative number, without ringing the subscriber phone first. Call Forwarding is great for the business person who wants to catch after hours business calls at home, or for anyone who doesn't want to miss an important call.

TO FORWARD YOUR CALLS:

1. Lift the receiver and listen for a dial tone.
2. Dial *72.
3. Wait for a confirmation tone, then dial the number to forward to.
4. Wait for the courtesy call to be answered, or for the confirm tone if courtesy calls are not required.

If there's no answer, or the line is busy, hang up and repeat the previous steps. If you do this within two minutes, you'll hear two beeps meaning your Call Forwarding feature is in effect.

Once you've activated Call Forwarding, the phone will make one short ring each time a call is forwarded. However, you can still make outgoing calls from this phone.

If you wish to change the number your calls are being transferred to, just discontinue Call Forwarding, (see next column), and redirect your calls using the above steps.

TO DISCONTINUE CALL FORWARDING:

1. Lift the receiver and listen for the dial tone.
2. Dial *73.
3. Listen for two beeps. Call Forwarding is now discontinued.

CALL NUMBER DELIVERY (Caller ID)

Call Number Delivery identifies the number of the calling party. After your phone rings once, the caller's number appears on the display. You can then decide if you want to answer or not. The date and time of the incoming call is also displayed. **NOTE:** You must own a display phone or an attachment that displays the number.

HOW TO USE:

1. When you receive a call, wait until your telephone completes the first ringing signal.
2. The telephone number calling you--and the name associated with that number in telephone company records--will automatically appear on your display screen.
3. If you choose to answer the call, the name and number will remain on the screen until you or the caller hangs up.

TO ACTIVATE:

1. Lift the receiver and listen for the dial tone.
2. Dial *65.
3. Listen for two beeps.
4. Hang up.

TO DISCONTINUE:

1. Lift the receiver and listen for the dial tone.
2. Dial *85.
3. Listen for two beeps.
4. Hang up.

Notes:

- This feature will not function for some long-distance calls.
- The Calling Name and Number Delivery or Calling Number Delivery requires subscription to these services and the purchase of a display telephone and/or add-on display unit.

Midstate Communications Calling Features

CALL WAITING

While you're on the phone, Call Waiting notifies you when another caller is trying to reach you. By simply pressing on the switch hook, you can place one caller on hold and speak to the second caller.

HERE'S HOW YOUR CALL WAITING FEATURE ALERTS YOU:

1. A beep tone tells you another call is waiting. Only you hear this tone.
2. Another reminder tone will be heard 10 seconds later if the waiting call remains unanswered.
3. The second caller hears the normal ringing tone only.

TO ANSWER THE SECOND CALL:

1. Depress the switch hook for about one second to place your first call on hold.
2. You will automatically be connected with the second caller.

TO ALTERNATE BETWEEN CALLS:

1. By depressing the switch hook for about a second, you may alternate between calls.
2. Each conversation is private and cannot be heard by the other caller.

TO TERMINATE EITHER CALL:

1. Simply hang up.
2. Your telephone will then ring.
3. When you answer it, you'll be connected with the other caller.

CANCEL CALL WAITING *70

This service allows a Call Waiting subscriber to disable call waiting for an individual call, so that important calls are not interrupted.

- To disable Call Waiting for the next call, press *70 before the call
- To cancel call waiting during an active call (when Three Way Calling is activated), press *70 during the call
- To cancel Call Waiting during an active call when Three Way Calling is not activated, flash-hook and press *70 during the call

CONFERENCE BRIDGE

Conference Bridge allows multiple phone lines to be tied together for a conference call, which can be local or long distance. Call the office ahead of time to make your reservation. You will be assigned a call-in number for your reserved time on the bridge.

CUSTOMER ORIGINATED TRACE

Customer Originated Trace lets you trace the origin of a harassing or obscene call. This option is available on your phone at no charge.

HOW TO USE:

1. When you receive an obscene or harassing call, hang up the handset.
2. Then pick up the handset and listen for dial tone.
3. Dial *57.
4. To trace the last call, dial "1".

You will receive a confirmation message saying if the call was able to be traced. If the number was traced, it is printed at the telephone company. You will then need to contact the sheriff to have this information released to the proper authorities.

Note:

- Customer originated trace must be used immediately after you hang up on the call you want to trace. If you get another call or hear a Call Waiting tone first, you will trace the wrong call.

PRIORITY CALL

This service allows users to select a list of numbers from which incoming calls will ring with a distinctive tone.

HOW TO USE:

1. Pick up the handset and listen for the dial tone.
2. Dial *61 or *81 and configure priority call via the screen list editing menu prompts.

WHEN SOMEONE CALLS:

1. If the call is from someone on your priority call list, you'll hear a special ring. All other calls will have a normal ringing pattern.
2. If you have Call Waiting and get a call from a number on your priority call list while you're on another call, you'll hear a special Call Waiting tone.

SELECTIVE CALL FORWARDING

This service allows subscribers to select a list of calling numbers whose calls will automatically be forwarded. All calls from numbers on this list are forwarded on to a single alternative forwarding number.

HOW TO USE:

1. Pick up the handset and listen for the dial tone.
2. Dial *63 or *83 and configure selective call forwarding via the screen list editing menu prompts.

WHEN SOMEONE CALLS:

1. If your service is turned ON, and caller is on your forward list, the call will be re-routed to your "forward-to" number. If the caller is not on your forward list, the call will ring at your home as usual.

Midstate Communications Calling Features

SELECTIVE CALL REJECTION

This service allows subscribers to select a list of numbers from which incoming calls are automatically rejected. A rejection announcement is played to the calling party.

HOW TO USE:

1. Pick up the handset and listen for the dial tone.
2. Dial *60 or *80 and configure selective call rejection via the screen list editing menu prompts.

WHEN SOMEONE CALLS:

If your service is turned ON, callers who are on your rejection list will hear an announcement that your number is not accepting calls at this time. All other calls will ring through as usual.

SPEED CALLING

This service allows one-digit or two-digit codes to be used as shortcuts for selected phone numbers. The subscriber enters the code and this is interpreted as if he or she had dialed the phone number to which the short code maps.

The short codes have a one-digit range and a two-digit range. The defaults are 2-9 and 20-49 respectively.

- To use speed calling, dial the short code and then either dial # or wait four seconds.
- To configure one-digit speed dialing, press *74.
- To configure two-digit speed dialing, press *75.

TO ESTABLISH YOUR SPEED CALLING LIST:

1. Lift the receiver and listen for the dial tone.
2. Dial the one-digit or two-digit access code (*74 and *75 respectively).
3. A broken dial tone is played.
4. Enter the one-digit or two-digit short code, followed immediately by the number to which the short code maps.
5. A confirm tone is played, then after a second of silence, either the reorder tone or dial tone is played.

TEEN LINE

This service allows you to have a second telephone number assigned to your existing line. Any customer who wants to have some of the advantages of a second line at a small cost can use it. How does it work? All incoming calls on a teen line number will have 1 short and 1 long ring, so the customer can distinguish which line is being called. If you have call waiting and are on a call, you will hear two short beeps if the incoming call is on the teen line number.

THREE-WAY CALLING

This service allows a subscriber to call another party during an existing call and add this party to the call, creating a three-way conversation.

TO ADD A THIRD PARTY:

To add a third party to an active call, flash-hook and then dial the third party's number. If the third party answers, flash-hook again to add both of you to the original call, connecting all three parties.

If the third party does not answer or their line is busy, flash-hook twice to rejoin the original call. If you hang up you will receive a ringback reminding you that the original call is still on hold, and can rejoin the call by picking up the phone. This service is known as 3-Way Calling Ringback.

If either of the other two parties hangs up, you can continue to talk to the one remaining.

CALL TRANSFER

This service allows a subscriber to call another party during an existing call, and transfer the call to the second party.

TO TRANSFER A CALL:

To transfer a call to a second number, flash-hook and dial the second number. Wait until you hear ringback. At this point you can then hang up either before or after the second number answers, and the call will be transferred to their line.

WARM LINE

Warm Line is designed to help our customers in case of emergency. If the customer picks up the phone and fails to dial within 30 seconds, a pre-determined number is automatically dialed. The customer selects the number to be dialed and we program it into the switch.

HOT LINE

This service allows a subscriber's line to be configured with a number that is dialed automatically when the phone is taken off the hook. For example, this could be used in an airport to provide a phone that dials a local taxi firm, but no other numbers.

FIND ME FOLLOW ME

This service provides a way for subscribers to configure additional numbers that will be rung instead of or as well as the subscriber's own number, any of which can answer the call. A pre-defined order is used to determine which number(s) to ring next. Once one number has answered the call, ringing on the other configured numbers is stopped.

EASY WAYS to stay safe online

We need to protect ourselves online. Here are some easy things we can do to keep our information safe.

PASSWORDS

Use strong passwords because simple passwords can be guessed. Make your passwords at least 16 characters long and make sure they are random and unique for each account. Use a password manager, a secure program that will maintain and create passwords. This easy-to-use program will store passwords and fill them in automatically.

PHISHING

Many successful online intrusions result from a “phishing” message downloading malware or giving personal information to a spammer. Do not click or engage with these phishing attempts. Recognize them by their use of alarming language or offers that are too good to be true.

TURN ON MULTIFACTOR AUTHENTICATION (MFA)

Use MFA on any site that offers it. MFA will provide an extra layer of security in addition to a password when logging into accounts and apps, using something like a fingerprint scan or a code sent by text.

UPDATE SOFTWARE

When devices, apps or software programs (especially antivirus software) send notifications that updates are available, we should install them as soon as possible. Updates close security code bugs to help better protect our data. Turning on automatic updates will help to make it even easier.

CLASSIFIED TELEPHONE DIRECTORY

All Business and Professional Telephone Customers Included in this directory are arranged in alphabetical order under classified headings which are generally descriptive of various businesses and professions.

For information concerning the Yellow Section, contact your local Telephone Company or Pinnacle Marketing Group at 218-444-2180.

All Customers in the 605 area code will need to dial the area code followed by the 7-digit telephone number. 10-digit dialing became mandatory in October of 2021.
